Muffin's mix up

Muffin's mix up is a fun activity suitable for Infant Classes and First and Second Class pupils.

Children use a simple menu system to select different heads, bodies and tails to create pictures of dogs. They could work in pairs and talk about their dog and their attributes. When they have decided on a dog they like they can enter a name for the dog and print out its picture.

A stand-alone version of the game can be downloaded to play offline.
