

In one year, Dogs Trust neutered 8,896 dogs!

Each big block represents a thousand dogs!

Each tiny square represents one dog. There's one square for every single dog that Dogs Trust neutered!

This block here represents 800 dogs. How many hundreds of dogs were neutered in total?

Here are the 'tens'. How many 'tens' are there in each thousand?

These six are the 'units'. They're tiny - just like me!
